*Anytime somebody talks of wine, we are eager to know their story, be acquainted with their dreams, the steps they take when looking at the hills and walk through vineyards.*

*This is the wine: a story, a land, the gesture of the worker, the project of the owner, the patience in the cellar, the dream of the drinker, the memory of where it comes from and...*

*many other things that make its soul: each type of wine has a soul..*
